USG walworth 114 Info.xls

Thank you for working with the state and us on this CBI issue. Attached is the spreadsheet of information that we are asking you to forward to the state, with whatever CBI claims you wish to request.

That makes sense to me Greg. I have copied Susan Tennenbaum (EPA attorney) for your reference in reaching out on the USG spreadsheet developed by Region 5. Please let me know if there are other ways I can facilitate a conversation or any other means of getting this data for our (WDNR) review.

Thank you so much for your continued correspondence on this.

Gail

Hello, Gail.

In follow up to me voice mail, our counsel asked if the USEPA would consider providing USG the spreadsheet directly and we can determine what information on the spreadsheet is CBI. We will then share the spreadsheet directly with the you, the WDNR, explaining which portions of the spreadsheet should be treated as CBI. Without knowing the information on the spreadsheet we desire to make sure CBI protection is over the spreadsheet. Please let me know your thoughts.

I was also following up on the air modeling files.

Thanks again for your help in this process.

Regards,

Greg

**Subject:** Information from USG-Walworth

We sent information requests under §114 to USG Interiors on April 8, 2009 and October 13, 2009.

We received responses from USG Interiors on the following dates:

May 13, 2009

May 29, 2009

June 10, 2009

June 30, 2009

July 14, 2009

July 31, 2009

August 13, 2009

December 4, 2009

December 18, 2009

February 12, 2010

If we receive permission from USG Interiors to send you this information, we envision sending you a spreadsheet which compiles relevant portions of these responses. This spreadsheet is thus a compilation of the information we extracted from these responses for the purpose of evaluating throughputs and emissions at their Walworth facility.
